HISTOPATHOLOGY (ENDOMETRIUM)

HPL : 2154/2021

SPECIMEN : ENDOMETRIAL BIOPSY

GROSS EXAMINATION :

Received multiple grey brown soft tissue pieces measuring 2.0 x 1.0 cms.

MICROSCOPIC EXAMINATION :

Sections mainly are composed of blood clot, ectocervical lining tissue, a few endocervical glands and round to tubular endometrial glands with a single tall columnar epithelial lining. Stroma is scanty. However no atypia is seen.

IMPRESSION : NON SECRETORY ENDOMETRIUM.
